

AUTOMATING YOUR PROPERTY MANAGEMENT BUSINESS

*Save Time and Money with
Automated Software Solutions*

1

INCREASE AUDIENCE ENGAGEMENT

*Save time and money with automated
owner statements and online payments.*

Various studies confirm most small-business owners invest roughly **20% of their time marketing** their businesses. That's not much if you want to grow your business and fill those vacant units quickly. With **80% going toward administrative tasks** and maintenance, a large portion of the weekly time budget is not producing any revenue.

20% MARKETING

80% ADMINISTRATIVE

Devoting more time to audience engagement is a strategy that pays off, especially when business owners utilize a multiple-channel approach, according to a survey released by Constant Contact. The survey reveals that businesses see **significant revenue increases (40%)** and **gain new customers (57%)** by implementing marketing strategies that leverage multiple platforms.

40% REVENUE INCREASE

57% NEW CUSTOMERS

For small- to mid-size business owners who need to reorganize their schedules to allow more time to concentrate on marketing, eliminating unnecessary manual administrative tasks (automating owners' statements, maintenance requests, and online payments) directly translates into hours available for marketing and audience engagement.

2

IMPROVE YOUR PROFIT MARGINS

Foster new client acquisition and cut overhead expenses by replacing complicated processes.

3

BUILD POSITIVE CUSTOMER RELATIONSHIPS

Benefit from lower turnover rates, curb the costs, and strengthen your reputation.

4

INITIATE INFORMED FINANCIAL PLANNING STRATEGIES

Facilitate efficient data collection, collaboration, and distribution by working with accurate data.

5

MANAGE THE PORTFOLIO

Replacing complicated, resource-intensive processes with budget-friendly, simple automation tools fosters new client acquisition while cutting overhead expenses.

6

AUTOMATE COMPANY-WIDE PROCESSES FOR EFFICIENCY

Investing in automation technology cuts operating expenses and increases profits, with a number of benefits for your renters, too.

AUTOMATED PROCESS

Digital applications and leases

Web-based communication tools/
digital archive

Online maintenance requests

Digital automation resources to facilitate
financial planning and budgeting

Archived digital applications, email
communication and online owners' statements

THE RENTER CAN ...

PROPERTY MANAGEMENT BENEFIT

Apply and sign a lease any time of day, from any location, using a desktop or mobile device.

Have fewer vacancy days and renters lost due to processing delays.

Avoid the inconvenience of lost paper files.

Instant access to previous messages, monthly statements and renter profiles makes revisiting an issue more efficient and less time consuming.

Report a problem instantly, and get results faster.

Improve customer response time by allowing maintenance teams quick access and the ability to prioritize tasks.

Benefit from more money spent on amenities and upgrades to keep them happy.

Well-informed decisions allow you to cut unnecessary expenses and increase the profit margin.

Help keep their environmental footprint minimal.

Support sustainability commitments and fewer printed documents; spend less money on office supplies, postage and payroll hours.

7

CHOOSE BEST-IN-CLASS TECHNOLOGY SOLUTIONS

Save time and money with automated software solutions.
